

# Popular RADOX Solar Cables

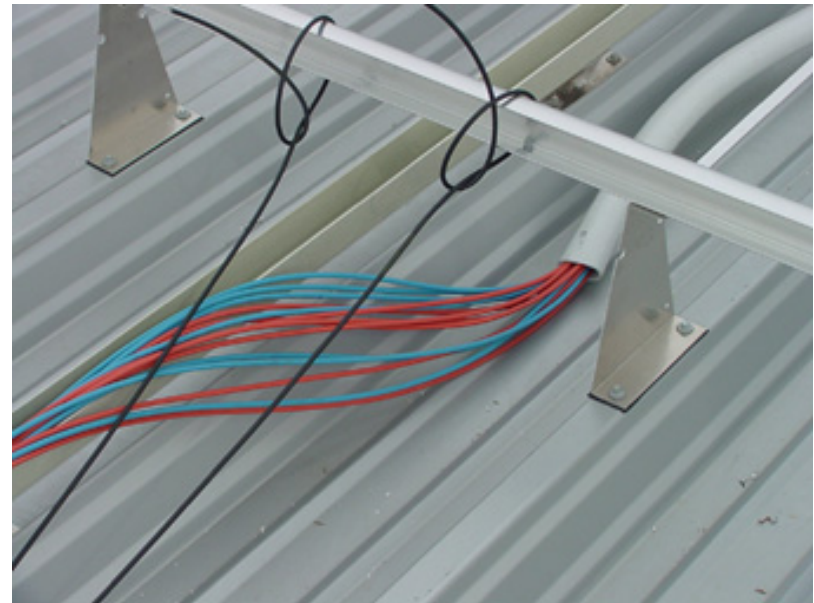

# A challenging Rooftop Application

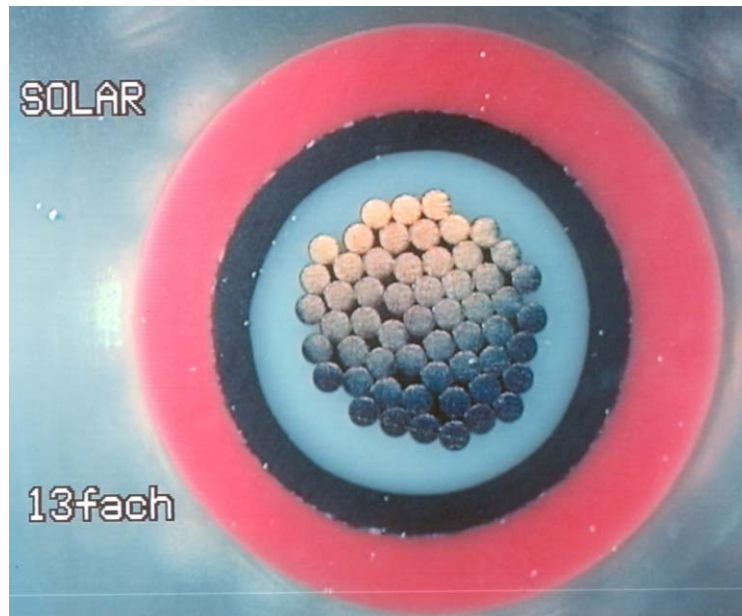

# Requirements?

- Are there any sharp edges on the roof?
- Is ease of installations and lifespan critical?
- Is there a risk of the cable being damaged?
- Is space an issue?
- Do environmental factors affect solar products?
- Want to avoid costly repairs of the cable / module?
- Looking for a solution that is easy to install?

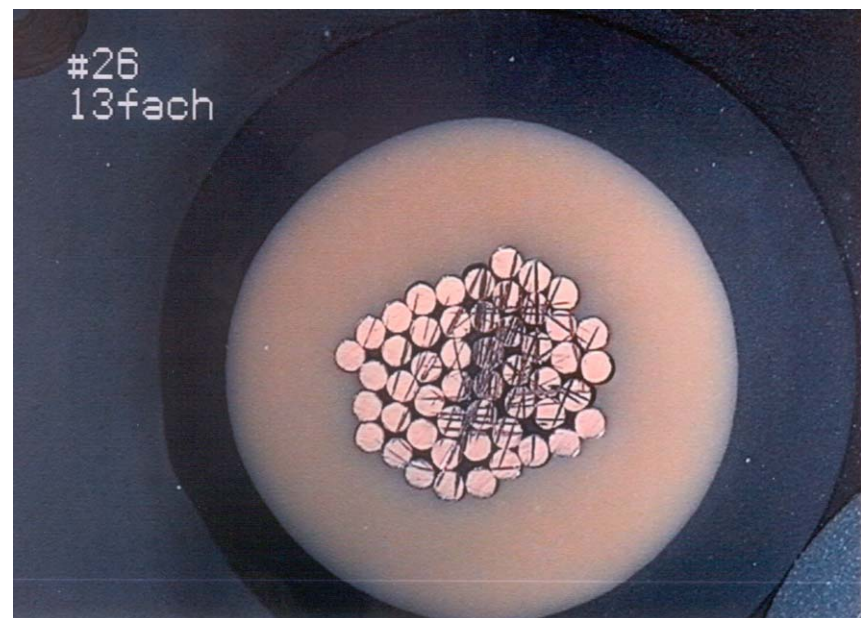

# Cable construction details

RADOX® Solar Cable

F..... Solar Cable

# H+S products for the Solar market

**RADOX Solar Cables, TÜV + UL**

**Connector**

**Grip Hood**

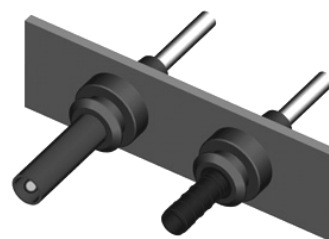

**Socket**

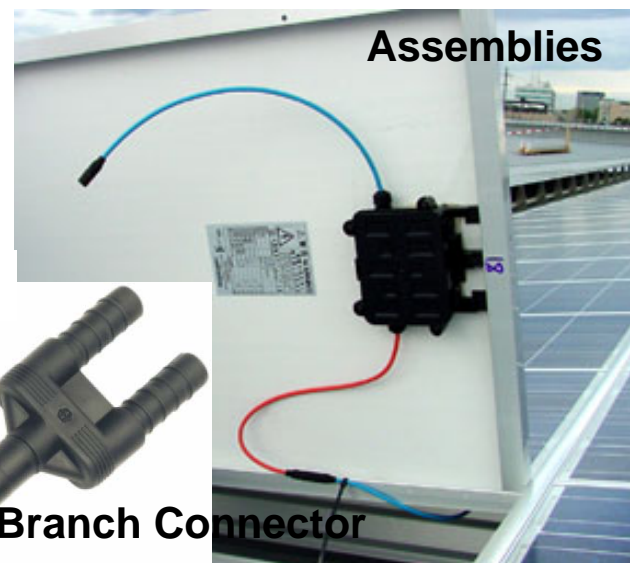

**Grip Hood**

**Junction Box**

**Inverter Connector**

**Assemblies**

**With Locking**

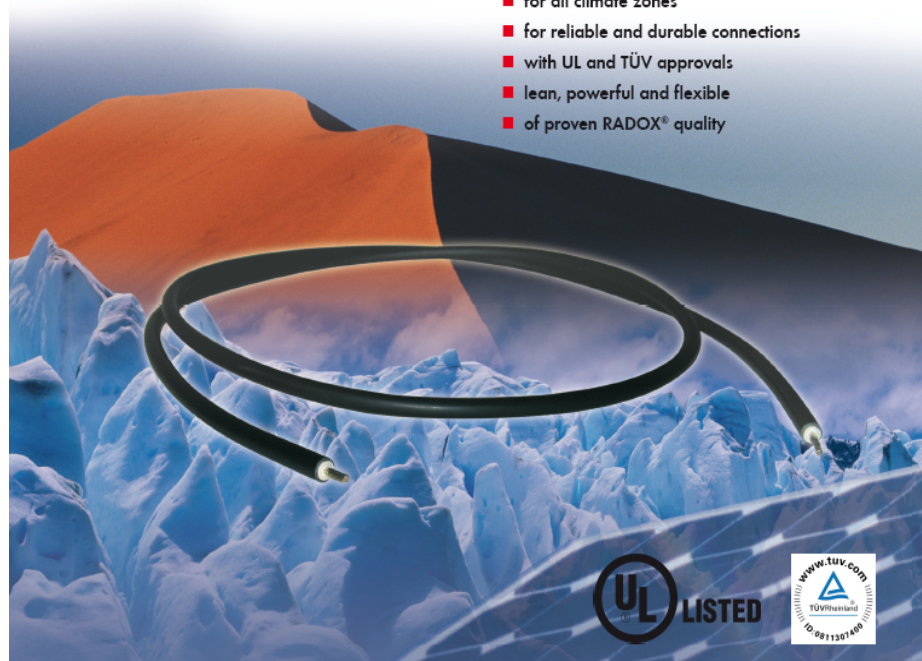

**Branch Connector**

# And brandnew.....

## Solar cable RADOX® SMART - first choice worldwide

### One solar cable

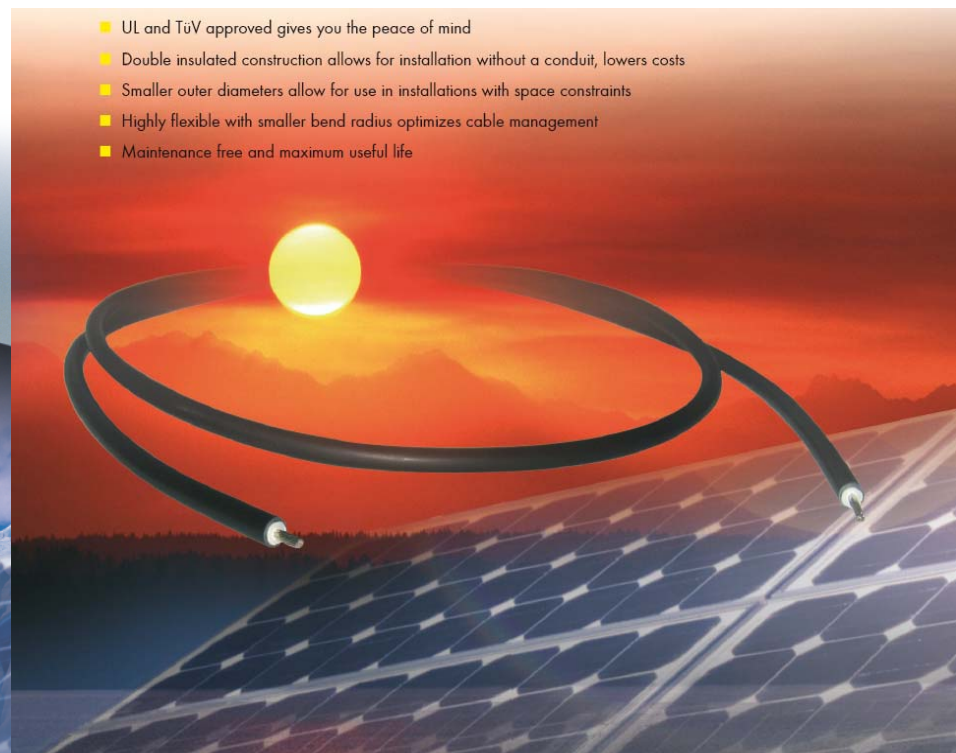

- for all climate zones
- for reliable and durable connections
- with UL and TÜV approvals
- lean, powerful and flexible
- of proven RADOX® quality

## Link with reliability!

## HUBER+SUHNER's RADOX® SolarLink cable

- UL and TÜV approved gives you the peace of mind
- Double insulated construction allows for installation without a conduit, lowers costs
- Smaller outer diameters allow for use in installations with space constraints
- Highly flexible with smaller bend radius optimizes cable management
- Maintenance free and maximum useful life

# Features.....

## **RADOX Solar Cable**

- ▶ High Lifetime
- ▶ High Quality
- ▶ Space Saving

## **Solar Connector**

- ▶ Easy for manual assembling
- ▶ Space Saving
- ▶ High current rate

## **Junction Box & Accessories**

- ▶ Complete Solar Connectivity Solution
- ▶ Easy for manual installation and maintenance
